

Industry Problem

The Challenge in Remote Operations

In oil & gas + mining environments

- Medical incidents occur in **remote or offshore locations**
- Clinical care often **ends at medevac**
- No oversight during **transfer to definitive care**
- Complex logistics between **site, air transport, and hospitals**
- High exposure to **cost, delays, and risk escalation**

The Gap — once a worker leaves site — who is responsible for their care?

Core Services

Why Medical Travel Companions

Medical Escort (Post-Medevac)

- Global capability with local response
- Clinically led (not just logistics)
- Trusted across high-risk industries
- Rapid, scalable deployment

Flexible Engagement & Pricing

Retainer model from **AUD\$1,500/month/site**
(24/7 support for remote operations)

Terms & Conditions: Medical Travel Companions (MTC) is not a medical retrieval or medical transport service. MTC services are to assist and manage customers who are all declared as "fit to fly/travel" by a treating clinician and assessed as fit to travel by an external medical officer or family member. MTC provides advice or assistance in the event of an unforeseen emergency and revert to the usual emergency government department if required. MTC will provide the services to the extent permitted by law and will not operate outside of their usual scope of practice in their licensed jurisdiction. As soon as any customer or client uses the MTC services they are deemed as accepting our terms and conditions and privacy policy as stated on our website www.medicaltravelcompanions.com

Medical Travel Companions

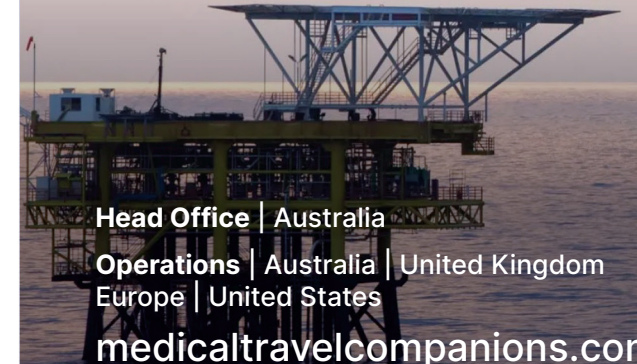

Military Paramedic | Nurse | Doctor

Remote Workforce Medical Support

The Solution

The MTC Solution

MTC provides end-to-end clinical support beyond the site boundary

We deploy experienced clinicians to:

- Meet workers at **heliports, airports, or healthcare facilities**
- Escort them safely to definitive care
- Monitor their condition during transit
- Coordinate with employers, insurers, and families

Ensuring continuity of care from incident to recovery

From incident to care
– clinically supported
every step of the way.

Core Services

Specialised Services for Remote Industries

Medical Escort (Post-Medevac)

- Meet at heliport, airport or designated meeting point
- Continuous monitoring (low acuity)
- First aid and emergency response if required
- Clinical handover to hospital

Logistics & Coordination

- Ambulance and transport coordination
- Route and timing optimisation
- Appointment scheduling

24/7 Retainer Support

- Ideal for remote sites
- Immediate response capability
- Ongoing workforce support

Industry Value

Value to Oil & Gas + Mining Operators

Reduce Risk

- Clinical oversight during critical transitions
- Lower likelihood of complications

Control Costs

- Reduced workers' compensation claims
- Fewer delays and escalations

Improve Outcomes

- Faster treatment pathways
- Better recovery and return-to-work timelines

Strengthen Compliance

- Demonstrable duty of care
- Supports ESG and safety commitments
